Gen^l

Will you direct your Ordnance officer Major Pierce to send to Guinneys depot immediately all the empty ordnance wagons he can, to be replenished with ammunition, for which they must remain, (not) loaded. To obtain as many wagons as possible, let him empty all he can, in replenishing the ammunition of your batteries

Very resp^y R E Lee

P.S. I need not remind you to have the ammunition of your own batteries replenished to night, every thing ready by daylight tomorrow. I am truly grateful to the Giver of all victory for having blessed us thus far in our terrible struggle. I pray he may continue it
